

## AK 676 MOSS DEPOSIT

Specific product to create moss over decadence appearance over any surface. This is due to the especially designed enamel paint which, when dry has a light surface texture. It can be mixed with Slimy Grimy or Wet Effects to achieve an ultra realistic result.

Select the area where to apply the product using a round brush.

Work the product smoothing the edges to blend it properly with the surface. It can be used with white spirit in this process.

Once dry the result is a very realistic matt moss and you can use Wet Effects if you prefer a more wet look.

The process can be applied in wood, concrete or vehicles.
