AK 800
DIORAMAS F.A.Q.
560 pages.
This is a complete guide for building dioramas, vignettes and environments. This book gives away all the secrets of the master modeler Rubén González. You will find detailed information on how to make any kind of terrain, weather effects such as snow, rain, desert and anything you can think of. The most complete and ultimate guide to cover all those difficult tasks that often arise when trying to figure out how to build dioramas. For sure a must-have for the modeling world. A book for the modeling history.

After many time of test and proofs, we are proud to offer the modelers the most complete range of products specially developed for dioramas. Are easy to use, and you can follow our YouTube channel to see how to use too.

MORE THAN 30 NEW PRODUCTS FOR
DIORAMAS

Land, effects of nature, water, snow, etc. With our DIORAMA series everything is possible.
Acrylic product for textures in dioramas. Can be thinned with water or an acrylic thinner to improve its flow. You can work with pigments once dry to achieve tonal variation. Use it in all applications of metallic- or non-metallic acrylics. Can be used on various types of non-porous surfaces such as glass, plastic, metal, and paper. This product is also completely transparent and can be used with a wide variety of materials. High-quality acrylic product.

**AK 8027 SPLATTER EFFECTS**

A low odor, 2 part component epoxy resin that simulates ice to be used as a coating or in the form of pigment. Can be thinned if desired. Mix resin and hardening agent in a 2:1 ratio and let dry for 24 hours. Available in 375 and 180 ml.

Dries transparent and will never discolor. It includes 2 syringes and instructions in the box. It also contains a special acrylic agent to produce ice-like surfaces. Available only in 180 ml.

**AK 8035 SPLATTER EFFECTS**

A low odor, 2 part component epoxy resin that simulates ice to be used as a coating or in the form of pigment. Can be thinned if desired. Mix resin and hardening agent in a 2:1 ratio and let dry for 24 hours. Available in 375 and 180 ml.

Dries transparent and will never discolor. It includes 2 syringes and instructions in the box. It also contains a special acrylic agent to produce ice-like surfaces. Available only in 180 ml.
